### Suggested Retail Value

**\$1675**

The Kelley Blue Book Suggested Retail Value is representative of dealers' asking prices and is the starting point for negotiation between a consumer and a dealer. This Suggested Retail Value assumes that the unit has been fully reconditioned and is in excellent condition. [Mileage/condition](#) and [additional equipment](#) may have a substantial impact on the value shown above. This value also takes into account the dealers' profit, costs for advertising, sales commissions and other costs of doing business. The final sale price will likely be less depending on the unit's actual condition, popularity, type of warranty offered and local market conditions.
